Software Engineering Leader

Experience

Founder / CTO, XENTEK – 2003-Present

XENTEK is my consulting company, specializing in Hypermedia APIs, Distributed Systems, DevOps Automation, and Software Engineering

VP of Engineering, Mac & Mia – 2017-2017

Mac & Mia is a curated commerce platform for busy parents. Customers work with their personal stylist who picks clothes for their children to try at home — keeping what they like and sending back the rest.

VP of Engineering, ReviewTrackers – 2015-2017

ReviewTrackers is an award-winning review monitoring and reputation management software platform trusted by tens of thousands of business locations.

VP of Engineering, Tastebud Technologies (formerly StyleSeek, Inc) – 2012-2015

StyleSeek was a personalized e-commerce site and recommendation engine, which evolved into Tastebud, a B2C retail platform with a strong mobile and on-location kiosk strategy. Acquired by Raise.com

VP of Engineering, GTrot – 2011-2012

GTrot was a personalized travel and local discovery search engine, which crawled your social graph to recommend things to do and places to see. Acquired by Groupon.

Skills

Software Engineering, Distributed Systems, Hypermedia APIs, Agile Teams, DevOps, Microservices, Go, Ruby, Python, Redis, PostgreSQL, Rabbit MQ, Solr, AWS, Docker, Ansible
