

Curriculum Vitae

Robert Jung, born 3.4.1980 in Dresden, Germany

Profile

I am a senior digital modeller with passion for design. My experience together with my extensive industrial design engineering education and a sound understanding of Bezier geometry allow me to easily sculpt complex aesthetical yet feasible forms.

Being a designer as well as an engineer I enjoy communicating with both and my positiv approach to solve problems makes me easily fit in new teams.

Whether exploring the very first shapes or detailing in Class A, I feel at home In every design phase.

Projects/Clients

Lamborghini Huracàn interior (especially centre console), Class A production surfaces.

Audi Q2 interior. Style surfaces of dashboard, centre console and doors. Later responsible for Class A door panel.

Various modelling tasks for Volkswagen, Audi, Maserati, SEM (South East Motors) and major supercar manufacturers.

Experience

- | | |
|---------|---|
| 2017 | Teacher of modelling course, Hochschule Aalen, Germany. 40 hours of theory and practical modelling in Alias and Icem Surf |
| 2011-18 | Icem Surf CAD modelling
mainly in Turin, Italy
mainly Class A |
| 2017-18 | Italdesign Giugiaro via He.Sa. Design |
| 2016 | He.Sa. Design (Brussels, Belgium) |
| 2014-15 | Pininfarina via He.Sa. Design |
| 2011-14 | Italdesign Giugiaro via Technicon Design |
| 2010 | 10 months Work and Holiday stay in New Zealand of which two months design project. |
| 2007-09 | Employed at Technical University Dresden, Germany. Gave CAD lecture, oversaw various projects and last year exams, worked towards a PhD (discontinued). |
| 2004-05 | 9 months internship, CAS Volkswagen AG, Wolfsburg, Germany. CAD modelling with Icem Surf, exterior design and creation of a car for China, 1:4 finish model. |
| 2003-04 | 5 months internship, ID-Design agency, Munich, Germany. Participation in various projects in all phases of the product design process including model building. |

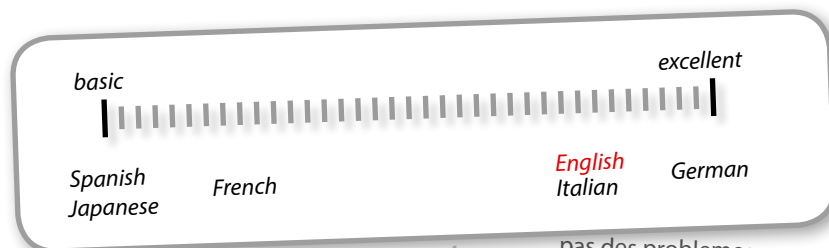

Education

- | | |
|-----------|--|
| 1999-2007 | Mechanical engineering, Technical University Dresden. Graduation with German diploma's degree (comparable to a Master) in industrial design engineering. |
| 2006 | Supplementary studies of Japan ("Good"). Language and regional courses. |

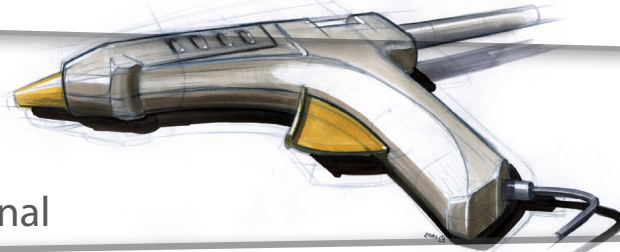

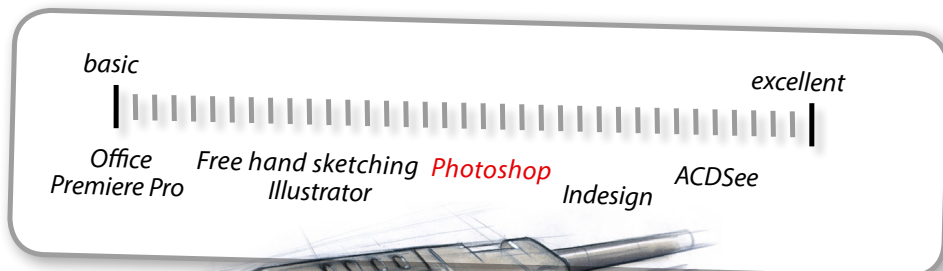

Awards

- 2010 Winner of a screenplay competition of my university. Realisation of the short movie idea as storyboarder, character modeller and director.
- 2007 Nomination of my final exam for Junior Design Prize of Saxony.

Languages

Two dimensional

Three dimensional

Interests

Cinematography, Photography, Lindy Hop, research and teaching of Bezier modelling.
