Language (B)
King Edwards VII School Sheffield

EXPERIENCE

**September 2017 - Present -
City Church Sheffield - Intern**

Over the last year I have had the opportunity to be an intern for City Church Sheffield. During my time here I have had a variety of tasks and roles. I've been given a wide range of creative tasks such as logos for T-shirt design; leaflets and flyers for various events across the year; set design and prop making over the Christmas; building and grounds maintenance and also general office admin. My other main role this year involved project and event planning, I was in charge of organising a weekend away for over 300 attendees. I had to liaise with the venue, sort out entertainment and organise the room plans.

**September 2017 - Present
Christ Central Churches
Devoted Festival
Booking System Manager**

For the last year in conjunction with my work for City Church Sheffield I have been working for Christ Central Churches particularly working for their summer festival Devoted. My role has been as a Booking System manager. For over 1500 delegates, making sure they get booked into the event correctly; answering any questions, queries or complaints. I have had to provide regular reports on how the system is running and fix any bugs and problems that occur.

**April 2017 - Present
Just Craftin' Around - Manager and leader**

Last April I set up and taught an eight week series of craft classes with the aim to connect adults from across Sheffield, to build relationships whilst learning something new and creating something fun. From the success of the first block of classes I have since run two further blocks of eight-week classes. Running the classes not for profit ensured we could keep the classes cheap and for 70 per cent of the time for free. This meant they were accessible to all and money wasn't a barrier to being able to make friends. I look forward to continuing to benefit the community through sharing my knowledge and love for crafts.

**October 2015 - Present
Waterstones - Café W - Senior Barista**

As a senior barista my roles and responsibilities are to ensure excellent customer service and that I lead my co-workers by example in excellence. I support the café manager with her vision, goals and implement changes she brings in to the running of the café. As part of the Sheffield store and bookshop I lead the very popular science fiction and fantasy book club where every month we see our numbers grow. My role at Waterstones has provided me with a fantastic building block for the future in terms of invaluable in both leadership and customer service.
